PROJECTS

CRCLS — Relationship CRM App

May 2026

- Built a cross-platform relationship-tracking app with Expo/React Native and Supabase, featuring customizable contact-frequency goals and one-tap logging — crcls.vercel.app

Wellome — Roommate Household Management App

Jun 2026

- Built a full-stack roommate coordination app with Supabase, featuring bill splitting, chore scheduling, and house-rules voting — wellome.vercel.app

Paletta — Color Palette Generator

Mar 2026

- Built and deployed a web app for generating fully customizable color palettes, addressing the lack of control in existing tools that produce overly random or unintuitive results
- Designed UI/UX to let users fine-tune palette outputs with meaningful options, prioritizing clarity and creative control
- Link: usepaletta.vercel.app

Hoyeon Fragment Portfolio Website

Dec 2025

- Designed and developed personal art portfolio using HTML/CSS with AI-assisted coding
- Created cohesive UI/UX experience showcasing multimedia work and technical skills
- Link: hoyeon-fragment.vercel.app

Omma's Kitchen — Restaurant UI/UX Demo

Jan 2026

- Created interactive restaurant ordering interface demo to explore modern web UI/UX patterns
- Designed user-friendly menu browsing, customization options, and checkout flow mockup
- Link: ommaskitchen.vercel.app

Zero Gambit (Board Game/Digital Game)

Feb 2026 – Present

- Currently developing hybrid board game and digital game experience combining strategic gameplay
- Designing game mechanics, rules, and user experience for both physical and digital platforms
