- Focus on audio mixing and preparing slides for sermons; plan and coordinate church events

Jun 2020 – Present

KPOP Choreography Club

Founder, President

- Founded club at John Champe High School to teach K-POP choreography
- Planned group choreographies to help students build confidence in dance skills
- Shared Korean culture through performance, education, food, and media including music and film

Jan 2023 – May 2024

PROJECTS

CRCLS — Relationship CRM App

- Built a cross-platform (iOS/Android/web) relationship-tracking app using Expo and React Native, with a Supabase backend for auth and persisted interaction history
- Designed a contact-frequency system ("Regulars") with customizable goals and one-tap interaction logging, including a group-logging flow for batch updates
- Implemented an interactive contact dashboard with searchable/categorized lists, swipe actions, calendar-based interaction history, and push notifications
- Link: crcls.vercel.app

May 2026

Wellome — Roommate Household Management App

- Built a full-stack roommate coordination app with Supabase-backed auth and invite-code house joining, supporting bill splitting and shared expense tracking
- Implemented an automated chore-scheduling system with recurring assignment logic and fair round-robin distribution based on historical completion data
- Designed a house-rules proposal and voting feature allowing roommates to collaboratively approve or reject shared agreements
- Link: wellome.vercel.app

Jun 2026

Paletta — Color Palette Generator

- Built and deployed a web app for generating fully customizable color palettes, addressing the lack of control in existing tools that produce overly random or unintuitive results
- Designed UI/UX to let users fine-tune palette outputs with meaningful options, prioritizing clarity and creative control
- Link: usepaletta.vercel.app

Mar 2026

Hoyeon Fragment Portfolio Website

- Designed and developed personal art portfolio using HTML/CSS with AI-assisted coding
- Created cohesive UI/UX experience showcasing multimedia work and technical skills
- Link: hoyeon-fragment.vercel.app

Dec 2025

Omma's Kitchen — Restaurant UI/UX Demo

- Created interactive restaurant ordering interface demo to explore modern web UI/UX patterns
- Designed user-friendly menu browsing, customization options, and checkout flow mockup
- Link: ommaskitchen.vercel.app

Jan 2026

Zero Gambit (Board Game/Digital Game)

- Currently developing hybrid board game and digital game experience combining strategic gameplay

Feb 2026 – Present

- Designing game mechanics, rules, and user experience for both physical and digital platforms
-
